General Tagging Rules

- Do NOT tape over the barcode – only tape the top ½
- Do NOT cut zip ties – cut ends become sharp and unsafe
- Do NOT place packing tape on paper, cardboard, or stickers/decals – It will tear and damage the item
- Place the tag on the outside of all Ziploc bags
- Tape the tag securely across the top (not over the barcode)
- When pinning or tagging:
 - Do NOT use the two holes printed on the tag.
 - Instead, place the pin or tagging barb just above the phrase “TKS Season | Season ‘Year”
 - This ensures proper placement and prevents tearing.

- **Clothing**
 - Hanger must face left -like a “?”
 - Tag goes on the TOP RIGHT seam, the RIGHT ARM PIT seam, or in the item's ORIGINAL TAG
 - When using a tagging gun or safety pin, the tag **MUST** go in a seam – never through the fabric
 - Fragile/Waterproof Fabric- Use the item's Original Tag
 - A hole punch + ribbon through a buttonhole is also acceptable
- **Accessories (Handbags, Belts, Jewelry)**
 - Use hole-punched tags + ribbon/zip-ties where appropriate
 - Avoid placing jewelry, bows, hats and other accessories in Ziploc bags – items in bags do not sell as well because shoppers want to touch and feel the item
- **Shoes**
 - Attach tags using the most secure method:
 - Packing tape
 - Zip tie + hole punch
 - Zip tie through a strap or lace
 - Tape over the top of the tag to reinforce

- **Books, Games, Boxed Toys, Wooden Puzzles, Items with Stickers**
 - Attach tags using the most secure method:
 - Painters Tape- this prevents tearing
 - Zip tie + hole punch
 - Packing tape on a Zip Lock Bag
- **Large Items**
 - For Items that will need a “LARGE ITEM TAG”
 - Print TWO copies of the same tag (Not a duplicate)
 - Organize your tags in a zip lock bag
 - Bring tags to drop off
- **Large Items**
 - For Items that will NOT NEED a “LARGE ITEM TAG”
 - Zip Tie + Hole Punch
 - Packing Tape
